writing the big book brings exhaustive research academic discipline and informed insight to the subject not seen since Ernest Kurtz's *Not God* published forty years ago focusing primarily on the eighteen months from October 1937 when a book was first proposed and April 1939 when *Alcoholics Anonymous* was published. Schaberg's history is based on eleven years of research into the wealth of 1930s documents currently preserved in several archives woven together into an exciting narrative. These real-time documents tell an almost week-by-week story of how the book was created providing more than a few unexpected turns and surprising departures from the hallowed stories that have been so widely circulated about early *AA* history. Fast-paced, engaging, and contrary, writing the big book presents a vivid picture of how early *AA* operated and grew and reveals many previously unreported details about the colorful cast of characters who were responsible for making that group so successful.

For members of any twelve-step fellowship, this book provides a simple and clear guide to the instructions for working the steps as outlined in *AA's* big book. It reveals in easy-to-understand language the process for working each step so that the reader can experience the twelfth-step promise of a spiritual awakening.

The basic workbook of the *Alcoholics Anonymous* which traces its roots, explores its precepts, and presents stories from participants that demonstrate the program's effectiveness.

An extraordinary reproduction of the original working manuscript of the big book of *Alcoholics Anonymous* with an introduction and notes by a panel of celebrated *AA* historians, the book that started it all offers fresh insights into the history and foundation of the revolutionary *Alcoholics Anonymous* program. Reproduced in this elegant gift edition, the original working manuscript is the missing link in our understanding of what transpired between *AA* founder Bill Wilson's first draft of *Alcoholics Anonymous* and the first published edition in January 1939. Wilson and other *AA* founders distributed 400 copies of his typed manuscript to everyone they could think of who might be concerned with the problem of alcoholism to test out the program. As the loan copies were returned, suggestions for revision were considered and written out in colored pencil on one master copy that was eventually submitted for publication. The many changes made in black, green, and red on page after page are shown here in their original form, revealing the opinions, debates, and discussions that went into making the big book.
